

# Lowther

*We love learning at Lowther*

Dear Parents, Carers and Friends,

Already 3 weeks into Autumn 2; time flies when you're having fun, right! We are well into our new Science and Geography topics, in addition to new topics in both English and Maths. We are also looking forward to our trip to the Natural History Museum next week too (22/11/2022). Please ensure your child comes to school with a packed lunch, a water bottle and appropriate clothing, as we will be out with the elements!

*Mr Picken and Ms Palmer*

Lowther  
Takeover Day

If your child wants to takeover a class or be an adult at school, they need to apply to Mr T. Good luck!

This week we have been learning:

English- We are now starting our new English topic, which is based around a Magic Treehouse book

Maths- Beginning our new topic, Multiplication, where we will start making equal groups, and then move into 3 and 4 times tables

Science- Learning about light sources, and how light travels

Geography- Continuing to develop our understanding of Earthquakes, and how different countries manage them

Outdoor PE- Tag Rugby

Music- Continuing our percussion learning with Mr G!

Here is a picture of members of 3J trying to identify what was inside the box, without lifting it. We were experimenting with light and dark.

### Diary Dates

Mufti day (18/11)  
World Cup dress up day (21/11)  
NHM trip (22/11)  
Takeover day (25/11)
