

# Lowther

*We love learning at Lowther*

Dear Parents, Carers and Friends,

What a week we have had! Watching England Monday was great, and I am glad so many children wore their own sports kits and enjoyed watching the match. Unfortunately we had to reschedule our trip to the Natural History Museum. As soon as we know the rescheduled date, we will inform you also. We have a busy couple of weeks coming up now, with the build up to Christmas. Exciting times ahead!

*Mr Picken and Ms Palmer*

Xmas fair– 2nd

December

We hope to see you all at the fair, where we will be selling two products made by your own children's hands.

This week we have been learning:

English– Y3 were able to write descriptive paragraphs about being in the centre of a volcano, and describing the emotion one may feel

Maths– continuing our new topic, Multiplication, where we will start splitting into equal groups, and then move into 4 and 8 times tables

Science– Learning about how light reflects

Geography– continuing to develop our understanding of earthquakes and volcanoes and their formation

Outdoor PE– Tag Rugby

Music– Christmas songs with Mr G

Guided Reading Books

It is imperative all children bring in their guided reading book every day, as we will be unable to change their book if we do not receive their previous book. Thank you.

Reminders

PE Kits– every day

Homework– handed in every Tuesday

Reading journals– in every day
