

Lowther

We love learning at Lowther

Dear Parents, Carers and Friends,

The children have had so much fun this week making goodies in preparation for the Christmas fair. The children all ventured down to the school kitchen and made meringues. In design and technology, the children learned new embroidery stitches while making Christmas decorations– these will be sold at our Christmas fair.

Mr Picken and Ms Palmer

Homework

Please complete an activity from the homework grid and complete the MyMaths tasks online.

Remember to also practise your times-tables.

This week we have been learning:

English– This week, the children have begun exploring the Magic Tree house book– Vacation Under A Volcano. They have been very engaged and interested to read, and listen to the story being read. We took part in many reading activities exploring the characters, the narrative and engaged in a debate discussing whether Jack and Annie should leave Pompeii, using evidence from the text and our knowledge of literature to support our ideas.

Maths– continuing our Multiplication and Division unit in maths.

Geography– continuing to develop our understanding of earthquakes. Children are exploring the effects of an earthquake while they are happening and the impact after their occurrence.
